

## IN THE CLAIMS

The Claims as they currently stand are presented below.

1. (Presently amended) A system comprising:

a display;

an external device coupled to the system; and

a customizable menu that is displayable on the display and which comprises a plurality

5 of customizable and selectable user interface items that respectively correspond to selected tasks or actions that may be performed by a user, each user interface item having one or more subtasks or sub-actions associated therewith, which tasks/actions and subtasks/sub-actions are selectable by the user and which initiates a through connection with the external device, and causes the selected task or action to be performed on the external device in a preprogrammed  
10 manner.

2. (Original) The system recited in Claim 1 which comprises a digital camera.

3. (Original) The system recited in Claim 1 wherein the tasks are selected from the group consisting of printing, e-mailing, archiving and downloading data from the system.

4. (Original) The system recited in Claim 1 wherein the external device comprises a printer.

5. (Original) The system recited in Claim 1 wherein the external device comprises a computer.

6. (Presently amended) A method comprising the steps of;

providing a system comprising a display and an external device coupled to the system;

programming the system to have a customizable menu that is displayable on the display

and which comprises a plurality of customizable and selectable user interface items that

5 respectively correspond to selected tasks or actions that may be performed by a user, each ~~icon~~ user interface item selectively having one or more subtasks or sub-actions associated therewith;

selecting one of the ~~icons~~ user interface items to perform a desired task or action; and

initiating a through connection with the external device to cause the selected task or  
10 action to be performed on the external device in a preprogrammed manner.

7. (Presently amended) The method recited in Claim 6 further comprising the step of:

after selecting one of the ~~icons~~ user interface items to perform a desired task or action, selecting a subtask or sub-action associated with the desired task or action.

8. (Original) The method recited in Claim 6 wherein the system comprises a digital camera.

9. (Original) The method recited in Claim 6 wherein the tasks are selected from the group consisting of printing, e-mailing, archiving and downloading data from the system.

10. (Original) The method recited in Claim 6 wherein the external device comprises a printer.

11. (Original) The method recited in Claim 6 wherein the external device comprises a computer.
